

Looking After

Our World

I love to hear baby birds
cheeping in their little nests.

I can see the wind turbines
turning and turning, making electricity
for us.

We must put our litter in the bin
especially if we are by the sea.
The animals could die if they eat
some of our rubbish.
Think of the dolphins, the turtles and
the seals.

Those poor poor creatures.
If there are no bins around just put
it in your pocket and take it home with
you.
It will help the environment and
also help you.

The world can be a safe and happy
place
You just have to think about what
you are doing.

You have to clean up after your
dog.
Keep it on its lead if you are by some
sheep.

It is good that children have schools
to go to
They learn some thing new every day.
If you follow these rules you will
become a world safe superstar!
